

DIESEL / GAS FIRED ANIMAL CARCASS INCINERATOR

BATCH LOAD UP TO 50 KG

Model PC 5 is a single chamber diesel / gas fired furnace suitable for high temperature destruction of animal carcasses.

For maximum load, each cycle last between 2 to 4 hours.

Simply load the waste into the combustion chamber, close the door and turn on the push button switch on the furnace control panel. Minimal training is required and the furnace is ready to use, upon delivery.

The Benefits of CMTS Diesel / Gas Fired Incinerator

Efficient Combustion Technology

- ✿ Rapid combustion means low fuel consumption
- ✿ Thick refractory lining in main chamber retains heat and increases efficiency.
- ✿ Carcass can be destroyed as fast as it accumulates (under normal conditions with a properly sized unit)

Easy to use

- ✿ Timer operation with auto - ignition (no pilots to light)
- ✿ Easier loading and ash removal with lower profile and improved doors
- ✿ Single burner requires less maintenance

Biosecure and Sanitary

- ✿ Achieve complete disposal of carcasses the first burn - no need to rearrange remains
- ✿ Virtually eliminate smoke and odor (optional secondary burner available for use where required by regulation)
- ✿ Leaves only sterile white ash and brittle bone fragments

Specification

Waste Chamber Capacity	50 kg
Waste Chamber Volume	100 liters
Burn Rate Per Hour	10 kg
Approx. Time for Complete Burn Out	4.5 hours
Approx. Amount of Residue	4.5 kg

External Dimension	66x81x107 cm
Door Opening	46x66 cm
Height to Door Opening	76cm
Approx. Total Weight	603kg
Min. Suggested Slab Size without a Shelter	1.8mx2.4mx10cm
